PICK YOUR LANE

Your quick idea map.

Do not start by asking, "What can I post?" Start by choosing the type of fan problem you want to solve.

If you like analysis

- Use match explainers, player comparisons, and tactical breakdowns.
- Best platforms: X, Instagram carousels, YouTube Shorts, newsletters.

If you like fast trends

- Use polls, memes with context, hot takes, and daily watchlists.
- Best platforms: TikTok, Reels, X, Threads, community pages.

The first win is not money. The first win is proof that strangers care about one repeatable angle.

5 STARTER IDEAS

Pick one, not all five.

PLAYER DEBATE CAROUSEL

Turn a loud debate into 5 clean slides.

The better question is not who is greater. It is who changed games faster.

MATCH EXPLAINER REEL

Explain one moment people saw but did not fully understand.

This goal started 18 seconds before the shot.

FANTASY WATCHLIST POST

Help fans decide who to watch before the game.

Three players casual fans are sleeping on this week.

FAN PRODUCT ROUNDUP

Make useful buying lists around match days.

If you are hosting a watch party, start with these 5 things.

AI CONTENT REMIX PAGE

Use AI to turn one topic into many formats.

One football idea can become a reel, carousel, poll, and newsletter.

ONE SIMPLE AI WORKFLOW

Turn one topic into four assets.

This is the starter workflow to run before buying tools or building automation.

Input

- Topic: a player debate, match question, or fan problem.
- Audience: casual fans, fantasy players, training fans, or creators.
- Format: reel, carousel, poll, or newsletter.

Prompt

Give me 5 football content angles for [topic]. For each angle, include a hook, a 30-second script, one visual idea, one caption, and one safe monetization path. Avoid copyrighted clips and fake income claims.

If the hook feels generic, the post will feel generic. Make the angle specific before making it pretty.

7-DAY STARTER PATH

Your first test week.

Days 1 to 3

- Pick one idea lane.
- Write 10 hooks.
- Publish 3 simple posts in the same format.
- Save comments and questions.

Days 4 to 7

- Turn the best post into a second format.
- Create one useful link destination.
- Add a small CTA.
- Decide whether to repeat, refine, or stop.

The \$1 Full Pack expands this into 50 pages of ideas, workflows, hooks, and a 7-day sprint.
